

Welcome

I am a UQ Development Fellow at the School of Economics (of the University of Queensland). I am very passionate about delivering excellent research and impactful outcomes by acquiring valuable knowledge of how firms (or economies) work and apply this knowledge to make our community better. My research focus is data envelopment analysis and stochastic frontier analysis.

I obtained my PhD in Economics from the University of Adelaide (UOA) in 2014 and have developed a unique ability to research in the field of productivity and efficiency analysis, as well as its adoption to deal with the pressing social and economic problems. My Google Scholar profile can be found [here](#) and my CV is available on request.
